Update - 15 November 2019

TOKOROA CBD upgrade

STAGE 2 works commenced in October 2019 - the plaza is expected to open later this summer, followed by the toilets and shelter later in in 2020. NZTA have informed us they plan to finish their works on SH1 at the end of next week.

Works completed/underway

Downer had a productive week on site making good progress with the works. This week the team has been busy with:

- Completed installation of Talking Poles
- Completed stormwater construction in Plaza
- Commenced electrical ducting installations
- Approved shop drawings for precast concrete seating and confirmed order with manufacturer
- Commenced as-built survey – sanitary sewer, waterlines and stormwater
- Commenced mulching of gardens
- Continued volunteer and staff planting of gardens
- Mowed centre island and removed orange netting
- Placed mulch at base of trees in centre island
- Completed final report for stormwater construction

The plan for the next week is to:

- Shift site facilities to opposite side of site
- Complete cut to waste
- Complete bulk fill subbase
- Commence basecourse construction
- Commence concrete foundations for precast seating
- Construct Allproof strip drain along bus bay

As always these plans are subject to change for a variety of reasons, including weather, information etc.
