

APPENDIX A

Hierarchy of Roads

APPENDIX A

SOUTH WAIKATO

ROADING HIERARCHY

The roads in the rural area and streets in the urban areas of the District are classified in the following hierarchy:

Classifications	Functions and Characteristics
Strategic Routes	Roads which form part of a network of strategic importance nationally, have the highest standards with access control where necessary, and for which a high level of user service must be provided on a continuous basis.
Arterial Routes	Roads which provide important links within or between regions or territorial authorities having high safety standards and pavements in keeping with traffic use, with access controls where warranted.
Collector Routes	Locally preferred routes between or within areas of population or activities, complementing arterial routes, and having pavements and road geometry in keeping with the operational safety standards required for traffic volumes on each section of the routes.
Local Roads	All other roads servicing residential and rural development, with standards appropriate for the traffic volume using them.
Apart from the following roads/streets all other roads/streets are classified as Local Roads.	
Strategic Routes	State Highways 1, 5, 27, 30, and 32. Ongaroto Road
Arterial Routes	Arapuni Road - Arapuni Street Princes Street (Arapuni Street to Main Street) Main Street (Putaruru) Whites Road Harwoods Road
