1. Introduction

He kupu whakataki

All the fees and charges listed are the maximum that will be required to be paid for any particular service or item. Council reserves the right, at its absolute discretion, to charge a lesser amount for any particular service or item in any case where it is of the opinion that that is reasonable and fair, or in accordance with Council policy.

*Fees and charges are GST inclusive
(at 15% GST)*

Fees and Charges are also available from the Council's website at www.southwaikato.govt.nz.

The fees and charges in this document apply from 1 July 2023 to 30 June 2024 and are shown as GST inclusive (at 15% GST). The fees and charges exclude any charges imposed by banks e.g. credit card charges.

This document includes fees for 2022-23 as a comparison. Council sets fees and charges during the Long Term Plan process for a three-year period. Fees and charges for years 2 and 3 of that period may change during the annual plan process in those years. Every year the cost of providing Council services increases, so most fees and charges are increased annually by inflation using the Local Government Cost Index (LGCI). There are two reasons for not increasing fees by the LGCI:

1. Rounding - fees won't be increased until the new fee is at a logical value that is sensible to collect (e.g. a fee of \$125 will increase to \$130 and then may stay at that level for two years before rising again).
2. When there are legislative or other cost drivers that mean the value will be more or less than the cost index increase.

Please note that you never pay twice for the same thing. Council uses a combination of rates, user charges, loans and subsidies to fund each activity. Our Revenue and Financing Policy (the policy) guides how Council makes these decisions. This includes setting the balance between user fees (what you pay at the counter) and rate input (what is included in rates) for each service.

Council has worked out how much money will be needed for each activity in the coming year, and how much will come from each type of funding. The proportion of total costs coming from rates vs fees and charges for each activity is detailed in Council's Revenue and Financing Policy which is available from Council's website.

4. Building consent fees

He whakautu hangatanga

Please note:

- In addition to the fee for a building consent, other fees may be applicable.
- Additional processing/inspection fees will be charged at the hourly rate for extra processing and inspections as required. If engineering/design peer reviews are required by Council officers, then the costs will be charged as additional to the below fees.

Provisions to the schedule above

Where Council Officers do not have the qualifications to certify or approve any building work, the fee for the building consent shall be charged on the following basis:

- The scheduled fee for the issue of a building consent shall be charged, plus all actual and reasonable costs for the provision of contracted certification(s).
- Such additional charge(s) shall be estimated at the time of application of the consent and a deposit of this amount will be required.

The applicant shall pay the actual and reasonable costs of the service(s) provided, less the deposit, prior to the issue of any certificates. Alternatively, any excess will be refunded.

All fees have an additional Alpha One charge that needs to be added to these fees. Please refer to the Alpha One table that follows for these charges.

21. Liquor licensing

Raihana waipiro

Sale and Supply of Alcohol Act 2012

With the introduction of the [Sale and Supply of Alcohol Act 2012](#) the Government have set national default fees for alcohol licensing. Important details to note are:

- An annual fee is payable on the anniversary of your premise licence.
- Changes have been made to Manager's fees, Special Licences and Temporary Authorities.
- Licences for premises are based on a cost/risk-based approach for alcohol licensing fees.

Please use the table below to calculate your weighting amount for your premises and then use that to establish which risk category your premises fits into. Once calculated, please refer to the default liquor fees table (further down) for the application fee. Definitions of Class 1, 2 and 3 premises are available online on <http://www.legislation.govt.nz/act/public/2012/0120/latest/DLM3339333.html>

Note: Tanker suppliers are prohibited from drawing water from any hydrant within the district, all water takes must be from our dedicated tanker filling stations.

Council will not approve any applications for carriers who wish to take water out of the District unless it is part of Emergency Management as outlined in the Water Services Act.

Backflow prevention devices may be installed on water supply connections to ensure that contaminants cannot flow back into the mains water pipes. They are intended to protect the health of the community and are normally required where the activities on the property are deemed to be potentially hazardous.
