Approval authority:	Council
Consultation required:	Consult as part of the Long Term Plan
Record number:	DocSet ID number - 323711
Associated documents:	Long Term Plan 2015-25

7.1. Strategy Objectives

- Provide sound total asset management planning.
- Sustainability is embedded in all of Council's operations.
- Work together with our partners to achieve common goals.
- Embed a quality improvement philosophy into all operations of Council.
- Implement governance and management structures, systems and processes that improve our effectiveness and efficiency.

7.2. Link to Council Outcomes

- Efficient Council operations: Council ensures that our business practices are efficient and effective and achieved through successfully working with our community.

7.3. Background and Current Position

As identified in the Infrastructure Strategy, Council is going to focus on improving the quality of the information that we hold on our assets, so that we can make better asset management decisions in the future. Our assets team has put a lot of effort into working with the community on the quality of services and ensuring that our projects are achieved on time and on budget.

7.4. Strategic Priorities

- Council is a member of Communities for Climate Protection New Zealand (CCPNZ). As part of CCPNZ, Council is required to achieve five milestones. These are: inventory and forecast for the Community and Corporate Sector, establish an emissions reduction goal, develop and adopt a Local Action Plan, implement the Local Action Plan and monitor and report on emissions and implement actions and policies.

7.5. Year 1 Action Plan

Action	Position Responsible	Date	Resource Requirement
